

INDEX TO LOCATIONS IN THE 'P', 'V' AND 'X' FILES

Note 1: 'P118.17' means page 17 of P118. This refers to page 17 on the Acrobat Reader on the screen: it may not correspond to the page number in the original Information Sheet, since there was no consistency on whether to start counting page 1 from the front cover, from the next page or from the end of the introduction.

Note 2: If you are viewing this index on a screen, unless you are looking for a place which begins with A, B or perhaps C, it is quickest to open 'find', type in at least a few letters of the name and then press 'find next'.

Note 3: Unless otherwise stated, these are normally extracts from the 25" O.S. Plans.
