

CONTENTS.

CHAPTER I.

ACTS OF PARLIAMENT AND OTHER REGULATIONS AFFECTING RAILWAYS.

	PAGE
Lands Clauses Consolidation Act, 1845	3
Acquisition of Land	3
Standing Orders of Parliament	5
Parliamentary Estimates	7
Railways Clauses Consolidation Act, 1845	7
Railway Bridges	9
Accommodation Works	13
Act of Parliament regulating the Gauge of British Railways, 1846	14
Railways Clauses Act, 1863	14
Requirements of the Board of Trade	16
Circular of Board of Trade	18
Precautions Recommended by the Board of Trade in the Working of Railways	23

CHAPTER II.

PERMANENT WAY.

Formation Level	25
Table of Gauges of British and Foreign Railways	28
Requirements in Permanent Way	30
Ballast	33
Sleepers	37
Comparison of Cross and Longitudinal Sleepers	40
Chairs	43

	PAGE
Bowl or Pot Sleepers	48
Suspended Girder Rail	50
Rails and Fish Plates	52
Comparison of Forms of Rails	53
Super-elevation	57
Check Rails	58
Fish Joint	60
Bridge Rail	63
Action of Wheels on Rails	64
Manufacture of Iron and Steel Rails	68
Fastenings	71
Keys	73

CHAPTER III.

POINTS AND CROSSINGS.

Object of Points and Crossings	75
Points or Switches	75
Cross-over Roads	77
Crossings	78
Divergence at Points	80
Details of Points	80
Modes of Working Points	84
Three-throw Points	85
Trailing and Facing Points	86
Gauge of Line at Facing Points	87
Single-tongued Points	89
Mode of Manufacture of Crossings	91
Slip Points	92
Safety Points	93
Contractors', or early Points and Crossings	95
Scotches	96

CHAPTER IV.

SIGNALS.

Outdoor Signals	98
Time Signalling	99
Hand Signals	100

	PAGE
Early Signals	101
Semaphore Signals	102
Distant Signals	105
Mechanical and Electrical Repeaters	106
Audible Signals	108
Interlocking of Points and Signals	110
Signals at an Ordinary Junction	110
Slotted Signal	113
Details of Interlocking System	116
Spring Catch-rod	122
Importance of Spring Catch-rod Movement	127
Interlocking Gates at Level Crossings	129
Compensation for Temperature	132
Switch Locking-bar	135
Switch Bolt	136

CHAPTER V.

THE BLOCK SYSTEM.

Train Staff and Ticket System	140
Principles of Block System of Signalling	142
Audible Electric Signals	145
Visible Electric Signals	149
Permissive Block System	151
Electro-Magnet Instruments	153
Miniature Electric Semaphore	155
Three-wire System	157
Train Describer	159
Automatic Electric Signals	161
Electric Slot Signal	162
Telegraph Speaking Instruments	165
Automatic Recording Apparatus	166
Applicability of the Block System	167
Balance of its Advantages	169
Does the System Impede Traffic?	170
Success of the System	172
Objects to be aimed at in Safety Appliances	174
Cost of Precautions to be Considered	181

CHAPTER VI.

STATIONS.

	PAGE
Roadside Passenger Stations	183
Width, Length, and Height of Platforms	183
Station Subways under, and Bridges over Line	188
Arrangement of Booking Offices and Waiting Rooms at Roadside Stations	189
Signalman's Cabins	191
Roadside Goods Stations	191
Terminal Passenger Stations	192
Paddington Station	193
Euston Square Station	195
Cannon Street Station	196
Position of Booking Offices in Terminal Stations	196
Dimensions of Platforms	199
Materials for Paving Platforms	199
Buffer Stops	202
Stairs	203
Mode of Lighting	205
W.C.'s and Urinals	206
Turntables and Traversers	208
Water Supply	210
Booking Offices and Station Fittings	211
Terminal Goods Stations	212
Comparison of Different Arrangements of Goods Sheds	214
Cranes, Capstans, and Weighing Machines	217
Coal Drops	222
Locomotive Depôts	223

CHAPTER VII.

ROLLING STOCK.

Weights carried on the Wheels of Rolling Stock	229
Weights on Engine Wheels	231
Weights on Carriage and Waggon Wheels	232
Four-wheeled and Six-wheeled Carriages	233
Oscillation	235
Dead Weight of Rolling Stock	237
Underframes	238

	PAGE
Springs	243
Buffers, Draw-bars, and Couplings	244
Loose and Tight Coupling	247
Objects of Buffers	251
Effects of Collisions	252
Wheels and Axles	253
Tire Fastenings	260
Mansell's Wheels	262
Cast-iron Wheels	265
Axle Boxes and Bearings	265
Lubricants	269
Resistance of Air	270
Axle Friction	272
Friction between Wheels and Rails	272
Bogies	274
Arrangement of American Carriages	277
Carriage Bodies	279
Fittings of Carriages	279
Size of Compartments	281
Breaks	283
Continuous Breaks	286
Comparative Trials of Breaks	289
Intercommunication in Trains	291
Rope System	292
Electric System	293
