AGREEMENT

GENERAL CONDITIONS OF CONTRACT

Clause		
8	Interpretation	13
9	Government Assistance Scheme	14
10	Approval of Ministry	16
11	Satisfactory Operation	16
12	Specification	16
13	Offices and Stores Accommodation	16
14	Drawings	16
15	Samples	16
16	Inspection during Construction	17
17	Materials	17
18	Testing of Materials during Construction	17
19	Replacement of Defective Work or Materials	17
20	Carriage and Delivery of Materials	18
21	Superintendence, Supervision, Workmen etc.	18
22	Travelling Costs	18
23	Contractor's Works not to interfere with Railway Company's Works	18
24	Fencing etc.	18
25	Obstructions to Traffic etc.	19
26	Hand Signalmen for Protection of Traffic	19
27	Look-out Men and Watchmen for Protection of Contractor's Men	19
28	Date of Completion	20
29	Extensions of Time and Suspension of Works	20
30	Tests on Completion	20
31	Facilities for Tests on Completion	20
32	Time of Taking Over	21
33	Railway Company may use Works	21
34	Maintenance	21
35	Royalties and Patent Rights	21
36	Inclusive Price	22

Clause	Page
37 Terms of Payment	22
38 Certificates of Engineer	23
39 Certificates not to affect Rights of the Railway Company or Contractor	23
40 Additions to and Omissions from the Works etc.	23
41 Insurance of Electrical Equipment and Materials	23
42 Contingencies and Indemnity	24
43 Contractor not to assign or underlet Contract or publish Particulars without Consent	24
44 Power of Railway Company to take over the Works	25
45 Division of Work	25
46 Engineer's Decisions	25
47 Arbitration	26

SPECIFICATION FOR SUB-STATION EQUIPMENTS

GENERAL PARTICULARS

48 Brief Description of the Line and Train Service	27
49 Electrical System	27
50 Works included in the Specification	29
51 Location of Sub-stations and Track Sectioning Cabins	30
52 Climatic and Atmospheric Conditions	31
53 Structure and Loading Gauge	31
54 Sub-station Buildings	31
55 Heating and Ventilation of Sub-stations	31
56 Lighting of Sub-stations	31
57 Water Supply	31

GENERAL DESIGN AND TECHNICAL REQUIREMENTS

58 General Requirements	32
59 Interchangeability of Parts	33
60 Apparatus not mentioned in the Specification	33
61 Foundations	33
62 Cutting Away and Making Good	33
63 Framework and Supports	33
64 Erection	34
65 Current Densities	34
66 Copper and other Conducting Metals	34
67 Castings	34

Clause	Page
68 Sub-station Control Board	34
69 Cables and Small Wiring	35
70 Terminals	35
71 Conduit	36
72 Fuses	36
73 Instruments	37
74 Relays	37
75 Interlocking, Locks and Keys	37
76 Labels and Numbering	38
77 Insulating Oil	38
78 Special Tools	38
79 Screws and Bolts	38
80 Protection from Rust	38
81 Painting	39
82 Schedule of Spares	39
83 Schedule of Material and Apparatus	39
84 Removal of Inflammable Material and Rubbish from Site	39

SECTION I

EXTRA HIGH TENSION SWITCHGEAR

85 General Particulars	40
86 Current Capacity of E.H.T. Switchgear	41
87 Mechanical Stresses	41
88 Clearances	41
89 Circuit Breakers	41
90 Indoor Metal clad oil circuit Breakers	42
91 Operating Mechanism	43
92 Air Plant	43
93 Oil for Circuit Breaker and Transformer Tanks	44
94 Bus-bars and Connections	44
95 Insulators	44
96 Current Transformers	45
97 Auxiliary Transformers	45
98 Auxiliary Transformer Secondary Control Switches and Connections	47
99 Isolating Switches for Outdoor Switchgear	47

Clause		Page
100	Structures for Outdoor Switchgear	48
101	Cement	49
102	Bolts and Nuts for Outdoor Structures	49
103	Earthing Connections for E.H.T. Switchgear	49
104	Earthing Equipment for Maintenance Work	49
105	Pressure Detector	49
106	Screenwork	49
107	E.H.T. Feeders	50
108	E.H.T. Connection to Main Transformer	50
109	Fire Precautions	50
110	E.H.T. Cable Splitter Boxes and Sealing Ends	50
111	E.H.T. Feeder Protective Gear	51
112	Rectifier and Auxiliary Transformer Protective Gear	51
113	Design of Relays	51
114	Local Control Switches and Pilot Lamps	52
115	E.H.T. Control Board	52
116	Cables and Small Wiring	52
117	Galvanising	53

SECTION II

RECTIFIER TRANSFORMERS

118	Type of Transformer	54
119	Windings and Insulation	54
120	Bracing of Transformer Windings	54
121	Transformer Core	54
122	Transformer Tanks	54
123	Transformer Terminals etc.	55
124	Transformer Tappings	55
125	Fittings	55
126	Transformer Cooling Oil	55
127	Performance	55
128	Transformer Impedance Voltage	56
129	Transformer Rating Plate	56
130	Painting	56

SECTION III

MERCURY ARC RECTIFIER EQUIPMENTS

Clause	Page
131 General	57
132 D.C. Voltage and Regulation	57
133 Loading Resistances	57
134 Characteristics of Rectifier	58
135 Temperature Rise and Minimum Temperature	58
136 Rectifier Losses and Efficiency	58
137 D.C. Voltage Wave Form	58
138 Instruments	58
139 Protective Devices	59
140 Surge Arresters	59
141 Main Connections	59
142 Small Wiring Connections	60
143 Rectifier Control Board	60
144 Auxiliary Supply Control Board	60
145 Screenwork	60
146 Lifting Tackle	60

SECTION IV

LOW TENSION A.C. AND D.C. SWITCHGEAR AND CONNECTIONS

147 General	61
148 Arrangement of High Speed Circuit Breaker Equipments	61
149 Particulars of Main Circuits	61
150 Bus-bars and Connections	62
151 Rectifier, Feeder and Neutral Isolating Switches	62
152 Circuit Breaker and Bus-bar Screens	62
153 Positive Track Feeders	62
154 Negative Track Feeders	63
155 Main D.C. Cable Connections	63
156 A.C. Connections	63
157 Joints	63

Clause		Page
158	Clearances	63
159	Earthing Connections and Earthing Device	63
160	D.C. Ammeters and Shunts	64
161	D.C. Watthour Meters	64
162	Calibration of Meters	64

SECTION V.

HIGH SPEED CIRCUIT BREAKER EQUIPMENTS

163	General	65
164	Particular Requirement	65
165	Rating	66
166	Operation	67
167	Auxiliary Switches	67
168	Counters	67
169	Control Panels	67
170	Main Connections and Fittings	68
171	Small Wiring Connections	68

SECTION VI.

SUPERVISORY CONTROL EQUIPMENTS

172	General	69
173	Particular Requirements	69
174	Particulars of Equipments to be controlled and indicated	71
175	Design of Control Apparatus	72
176	Design and Operation of Control Board at Chadwell Heath Control Station	72
177	Control Desk	72
178	Batteries	73
179	Charging and Control Equipments	74
180	Arrangement of Batteries and Charging and Control Equipments	74
181	Transformer for Control Board Lights	74
182	Control Pilot Cables and Boxes	75

Clause	Page
183 Induced Voltage in Pilots	75
184 Telephone Communication	75
185 Control Cable Dividing Boxes	76
186 Small Wiring and Connections	76
187 Telephones and Bells	76
188 Control Station A.C. Supply Connections	76
189 D.C. Distribution Fuse Board	76
190 Supervisory Equipment Testing Set	76

TESTS

TESTS AT MAKER'S WORKS

191 General	77
192 Cables	77
193 Extra High Tension Switchgear—Section I	77
194 Rectifier Transformers—Section II	79
195 Mercury Arc Rectifier Equipments—Section III	80
196 Low Tension A.C. and D.C. Switchgear and Connections—Section IV	81
197 High Speed Circuit Breaker Equipments—Section V	82
198 Supervisory Control Equipments—Section VI	82

TESTS ON SITE

199 General Requirements	83
200 All Sections of the Contract	83
201 Extra High Tension Switchgear—Section I	83
202 Mercury Arc Rectifier Equipments and Transformers—Sections II and III	83
203 Low Tension A.C. and D.C. Switchgear and Connections—Section IV	84
204 High Speed Circuit Breaker Equipments—Section V	84
205 Supervisory Control Equipments—Section VI	84
206 Performance Tests	84

LIST OF SCHEDULES ATTACHED TO THE SPECIFICATION

Schedule	Page
(A) General Particulars Relating to Works	85
(B) Division of Work as between the Contractor and the Railway Company or Power Supply Companies .. .	86
(C) Drawings included with this Specification These drawings are not in this file .. .	90
(D) Particulars and Guaranteed Performance of the Switchgear, Apparatus and Converting Plant .. .	91
(E) Particulars of Pilot Cables .. .	104
(F) Drawings to be supplied by Contractor with Tender .. .	105
(G) List of Sub-Contractors and Places of Manufacture .. .	108
(H) Drawings to be supplied by Contractor during Progress of Works .. .	109
(K) Samples of Equipment to be supplied by Contractor during Progress of Works .. .	111
(L) Dates for Delivery and Completion .. .	113
(M) Itemised Schedule of Sub-station Equipment .. .	114
(N) Inclusive Prices .. Individual prices are not quoted in this file .. .	137
(O) Prices of Spare Parts .. .	156
(P) Tools .. .	156
